

I'm an online listener to K-LOVE, which could be forced off-air if LPFM is given priority over FM. K-LOVE and stations like it provide uplifting music to listeners all over the world, and will be greatly missed if lost. Please take this into consideration. Family-friendly programming like K-LOVE is in place and well-used and appreciated, and LPFM may not include this same "positive and encouraging" programming, which would indeed be a loss to the public. Thanks for your continued consideration of this issue and support of positive radio programming.
